

Ayan Sujon

Frontend Focused MERN Stack Developer

Noakhali, Bangladesh | +880 1684-770240

ayansujon.contact@gmail.com | [Linkedin](#) | [Github](#) | [Portfolio](#)

CAREER OBJECTIVE

To work as a Frontend (React) Developer in local and international companies by contributing clean code, scalable UI, and user-focused features. I aim to build modern, fast, and accessible web applications while continuously improving my skills to grow into a Senior Web Developer within the next 3–4 years.

SKILLS

Languages: JavaScript

Frontend: Next.js, React, TailwindCSS, Bootstrap, CSS, HTML

Backend: Node.js, Express.js

Database: MongoDB

Tools & Platforms: Git, Github, Firebase, VS Code, Notion, JWT, Thunder Client, Netlify, Vercel

Design & Graphics: Photoshop, Illustrator, Figma

Soft Skills: Adaptability, Communication, Team-building, Time Management, Organizing

PROJECTS

EcoTrack - Sustainable Living Community -MERN (Nov 2025) — [Live Link](#) | [Client](#) | [Server](#)

Built a full-stack community platform for eco-conscious users to join green events, share tips, and track their sustainability impact.

Key Features:

- Interactive sustainability challenges and Eco-tips sharing with upvote systems.
- Local green event listings and participation.
- Advanced search & sorting by category, date range, and participant count

Built with: **TailwindCSS, React, Firebase, Node.js, Express.js, MongoDB**

Footwear – Modern E-Commerce Platform -Next.js (Nov 2025) — [Live Link](#) | [Client](#) | [Server](#)

Built a responsive e-commerce website for footwear shopping with secure authentication, dynamic product listings, and full admin management.

Key Features:

- Product browsing, search, and category filtering
- Admin dashboard for managing products
- Responsive and modern UI design

Built with: **Next.js, React, TailwindCSS, Firebase, Node.js, Express.js, MongoDB**

GameHub – Online Game Library -React.js (Oct 2025) — [Live Link](#) | [Client](#)

Built a modern, interactive frontend game library platform where users can browse games, view details, rate favorites, and manage their profiles. Designed with a sleek, responsive UI and smooth navigation.

Key Features:

- Secure private routes, profile management, and Firebase authentication
- Dynamic rating system, animated UI, and responsive multi-device layout
- Contact API integration, newsletter subscription, and toast notifications

Built with: **React, TailwindCSS, DaisyUI, Firebase, React Router, GSAP, Axios, Vite**

EDUCATION

Noakhali Ideal Polytechnic Institute (NIPI)

Diploma in Computer Science & Engineering (4 Years)
